

## Quality politics

Infiltró, s.l. is a company specialized in the manufacture and marketing of air filters for the protection and care of the environment.

Our company was born in 2008, being the second generation of a family traditionally linked to the air filtration sector since the year 1980. Backed by more than 25 years of experience in the sector and willing to provide innovative solutions and continuous improvement.

Our philosophy is to be able to provide adapted and specific solutions, as well as suitable advice, to our clients and a studied and balanced quality / service / price ratio thanks to widely experienced workers and appropriate ways of working for the client.

For this we pay special attention to:

- Compliance with legal and regulatory requirements related to our activity,
- the training and specialization of our workers, the promotion of a quality culture,
- the establishment of strict quality controls and
- the optimization and continuous improvement of our internal processes.

In order to, compliance with this policy is essential collaboration and Involvement of all company personnel who must understand the need to satisfy customer needs through a constant improvement effort.
